

C-compiler settings.

If the C-compiler does not produce a HEX-file, please check the configuration.

Open the Configuration Options, under the tab Project.

Open Custom Options.

Unselect "Use AVR Toolchain"

Select the avr-gcc.exe and make.exe files, according to windows below.

Avr-gcc.exe:

C:/Program Files (x86)/Atmel/Atmel Toolchain/AVR8 GCC/Native/3.4.2.1002/avr-gnu-toolchain/bin/avr-gcc.exe

Make.exe

C:/Program Files (x86)/Atmel/Atmel Studio 6.1/shellUtils/make.exe

After that click OK, Compile, Build and Smile!
